INDEX.

List of sub-headings :—BANKRUPTCY, CABLES, CENTRAL STATIONS, CITY NOTES, CONTRACTS OPEN AND CLOSED, CORRESPONDENCE, ELECTRICAL, ELECTRICITY, ELECTRIC LIGHT AND LIGHTING, LEGAL, LIGHT AND LIGHTING, LIGHTNING, NEW COMPANIES, OBITUARY, OFFICIAL RETURNS, PERSONAL, RAILWAYS, REVIEWS, SOCIETIES, TELEGRAPH, TELEPHONE.

ABBOTT, A. V., jun., on the Load line in telephone exchanges, 284
Abbreviations for units and symbols for physical quantities, 344, 345, 519, 547, 556, 579, 683, 734
Académie des Sciences, 731
Accident, A sad, 243
" in the City, 598
" in the City, Board of Trade inquiry, 624, 643, 657
" to the Cologne express, 328
" at the Halle's station, 537
" Fatal at the Bankside station, 403, 455
" " at Blackfriars distributing station, 8
" " at Boston (Mass.), 433
" " on the City & South London railway, 207
" " in a coal mine, 661
" " at Leicester, 355, 403
" " at St. Helen's, 44
" " in the Sector of the Champs Elysées, 109
" " at Taunton, 631
" at Milford, 536
" Serious, to a wireman, 748
Accidents, Best method of treating, by P. M. Dyer, 644
" (electric), First aid in, 383
" " The pathology and treatment of, by W. S. Hedley, 262
" from shock, and their treatment, 733
" in Paris, 536
" Recent, occasioned by high tension currents, 221
Accumulator, Electric, locomotives, 766
" industry, German, 568
" The lead-dust, 494
Accumulators, A few remarks about, 547
" Epstein, 629
" Industrial efficiency of electric, 369
" for tramcar traction, Commercial possibilities of, considered as a municipal undertaking, by A. H. Gibbings, 728, 782
Acetic acid, Purification of, 779
Action of alternating currents on dielectrics, 337
" " currents on dielectrics, by G. L. Addenbrooke, 315
Addenbrooke, G. L., on Action of alternating currents on dielectrics, 315
Advantages of alternate currents, by Silvanus P. Thompson, 199, 219
" The, of alternating currents, 356
Aeronautics, Electricity in, 393
Agencies, 534, 661, 724
Agreeable electrical relish, An, 327
Air-core transformers, 546
Alchemist, A new woman and an, 164
Aldrich, Wm. S., on Power losses in the transmission machinery of central stations, 20, 29
Alkaline chlorides, A point in the electrolysis of, 43
Allgemeine Electricitäts Gesellschaft and the late Antwerp Exhibition, 693
Alteration of conductivity in liquids by pressure, 643
Alternate currents, Some advantages of, by Prof. Silvanus P. Thompson, 199, 219
Alternating arc lamps, Candle power of, 97
" arcs, Street lighting by, 341
Alternating arcs, Street lighting by, by Charles G. Armstrong, 62
" " by R. E. Richardson and S. G. Builer, 281
" circuits, Harmonics in, 423
" current distribution, A point in, 94
" current motors, by Rankin Kennedy, 651
" current, Some experiments on death by, 480
" currents, Maximum and effective pressure of, 256
" currents, Regulation of phases in working with, by C. L. Imhoff, 497
" currents, Swinburne's potentiometers for, 367
" currents, The action of, on dielectrics, 337
" currents, The action of, on dielectrics, by G. L. Addenbrooke, 315
" currents, The advantages of, 356
" meter, Duncan, 347
" motor, Elementary theory of the induction, by Rankin Kennedy, 156, 318
" *v.* continuous arc lamps, 311
Alternator curves, 458
" Electromotive force and current curves of the, 609
Alternators, Notes on the design of, by Rankin Kennedy, 371
" The parallel working of, by Gisbert Kapp, 317
Aluminium Company, 506
" soldering, 681
" sulphide as a source of aluminium, 564
American electric traction, 675
" Electro-Therapeutic Association, 47, 166, 481, 485, 512
" journalism, 187
" street railway investments, 495
" view of the cost of producing electricity, 24
Anderson & Kennelly's method of localising a fault by the earth overlap test, Modification of, by A. Jordan and W. Schönau, 427
Andreoli, Emile, on chloride of lead battery, 117
" on cyanide and electrolytic cyanide solutions, 586
" on the electro-deposition of gold, 550
" on electrolytic production of chlorine and soda, 395
Anthony, Wm. A., on economy in conductors and the limitations in the applicability of Kelvin's law, 611
Apparent death from electric shock, 748
" " from electric shock, by Aug. H. Goelet, M.D., 341
" " from electric shock, suggestions for dealing with, 694
Appleyard, Rollo, on the capacity and constitution of dielectrics, 286
Application of electrolysis to chemical analysis, 610
" of fuel oil to steam generators, 761
Applications of electric motors, Some of the, 405, 437
" of ozone, Practical, by Dr. O. Frölich, 685
Appointment deferred, 81
Approximate method of finding the forces acting in magnetic circuits, 155
Arc lamp, An "Exact," 207
" A revolutionary, 480
" The Krueger theatre, 499
" The "Luna," 535
" The Mensing, 159
" The Money-Nash, 346
Arc lamps, A fortune in, 205
" Alternating *v.* continuous, 311
" Candle power of alternating, 97
" in cotton mills, 613
" Distribution of light from, 584
" The scientific study of, by Rankin Kennedy, 127, 680
Arc light carbons, The influence of, on the candle power, by W. F. Stine, 460
Armstrong, Charles G., on street lighting by alternating arcs, 62
Aron, Rotten *v.*, 664
Arundel Castle electric lighting, 233
Association of Edison illuminating companies, 267
At last, 207
Athletic sports at Chelmsford, 17
Atmosphere, Electrics of the, by E. O. Walker, 188
Atmospheric conditions of electrically lighted liners, 384
Australian electrical news, 364
Awards, Exhibition, 762
" on wire, World's Fair, 220
Ayrton-Mather galvanometer, New, 542

BAINVILLE, A., on The incandescence lamp (continued from Vol. 34), 87, 129, 189, 581
Baker Street collision, The, 477
Balance, Conductivity, 370
Balls for packing purposes on rod ends, 748

BANKRUPTCY—
Akester, W. H., 446, 691
Barnacle, L J., 724
Electro-Medical Apparatus Company, 48
Gooch, W. D., 325, 381, 506, 596
Grigg, Wm., 629
Moorhouse, Edwin, 175
Oliver, E. P., 49
St. George, A. F., 106, 202
Shippey, Arthur, 175, 268, 352, 414
Wovilliard, Scarborough & Co., 506, 597

Barometers, Suggested improvements in, 479
Batteries, Medical "dry-cell," 523
" Report on secondary, by R. G. Brown, 512
Battery, An improved primary, 315
" The chloride of lead, by E. Andreoli, 117
" The chloride of lead storage, 503, 507, 585
" Dr. Borcher's gas, A suggestion, by L. S. Powell, 675
" The primary, again, 2
" Primary, testing, 186
" Storage, difficulties, 97
" " litigation, 537
" The Velvo carbon, 340
Battle of the curves, The, 490
Bedell, F., and Steinmetz, C. P., on Reactance, 254
Behaviour of alloys in a voltaic circuit, 122
" of bismuth in a magnetic field, 205
" of the electric current in bad conducting fluids, 491
Bersier's steering compass, 289
Best method of treating accidents, by P. M. Dyer, 644

Bidwell, Shelford, on The effect of magnetisation upon the dimensions of iron rings in directions perpendicular to the magnetisation, and upon the volume of the rings, 150
Birmingham saved from the spoilers, 14
Bismuth, Behaviour of, in the magnetic field, 205
Blackening of walls by straight current conductors, 265
Blackfriars Distributing Station, Fatal accident at, 8
Blackwell, R. W., and Dawson, Philip, on Electric traction, with special reference to the installation of elevated conductors, 606, 670, 699
Bleaching of paper pulp, Application of electricity to the, 600
„ starch, dextrin, and gum, by means of ozone, 384
Board of Trade and electrical measurement, 275
„ „ conference on light railways, 631, 693, 714
„ „ inquiry into the City accident, 624, 643, 657
„ „ inquiry regarding transformer chambers, 753, 757, 767
Boiler, steam, Selecting a, 307
Booth, Wm. H., on Piston valves for steam engines, 422
Borcher's (Dr.) gas battery, a suggestion, by Legh S. Powell, 675
Boynton high speed electric railway system, 141, 163
Bragge, Robert, and Lea, Henry, on A special chronograph, 240
Brakes, Electric, 615
Breakdown in the City supply, 433, 458
Breaking the record, 242
Brewery analysis by the aid of electricity, 2
British Association, 162, 172, 185, 191, 194, 204, 237, 271, 304, 332
„ „ Committee's report on Experiments for improving the construction of practical standards for electrical measurement, 272, 304
„ „ Mechanical section, 185
„ „ Presidential address, 162
British exhibitors and the Chicago Exhibition, 264, 298
Brooks, E. E., on Cathode rays, 648, 706
„ „ on The electro-chemical relations of carbon at high temperatures, 190, 223
Brown, R. G., Report on secondary batteries, 512
"Brunsviga" calculating machine, 207
Building of the ship, 242
Builer, S. G., and Richardson, R. E., on Street lighting by alternating arcs, 281
Bullock, P. H., on Forced *v.* natural draught, 645

CABLES—
Anglo-American, 50
Atlantic, Laying in twelve days, 131
Australian rates, 691
communication, 688
„ Jubilee, 632
competition, 353
Disappointing reports *re* Atlantic Cables Company, 142
English and the Madagascar question, 403
„ and French companies, Litigation between, 45
fault, A long-lived, 298
festivities, 14
the first direct New York, 474
French Atlantic project, 140, 243

German proposed Atlantic, 478
Germany and telegraph, 479
Halifax-Bermudas, 431, 662
Interruptions in submarine, 243
Japanese, 141
men, Hardships of, 297
New, to Shapinsay, 353
The new Atlantic, 14, 101, 140
„ „ Caledonia-Australia, 117
„ „ Pacific, 14, 40, 44, 173, 258, 278, 286, 343, 360, 425, 507, 537, 565, 598, 624, 632, 701, 722, 747

CABLES—*continued.*
The new Pacific, outlay and earnings, 181
„ „ „ Sir John Pender and, 662
railways, cable and electric, Working expenses of, 290, 460
submarine, English control of, 225
„ fault in a, Determining the position of a, between the repairing ship and shore station when the conductor is not broken, by the "fall of potential test," by J. Rymer-Jones, 280
working, Pupin's system of, 26

Cadmium, Electro-deposition of, 227
Cagney, James, M.A., M.D., &c., &c., on the Removal of nævi by electrolysis, 696
Call bells, Harmonic, 470
Canadian Electrical Association, 404
„ Government inspection of electric light and meters, 377
Candle-power of alternating arc lamps, 97
„ How to increase, 207
„ The influence of arc light carbons on the, by W. F. Stine, 460
Cannon Street explosions of November 10th, The cause of the, by J. Enright, 760
Capacity and constitution of dielectrics, by Rollo Appleyard, 286
„ of conductors, 467
Capillary-electrolytic sluice in the extraction of gold, by J. H. Jory, 650
Car, A dynamometer, 679
„ propulsion, Street, 3
Carbon, Electro-chemical relations of, at high temperatures, by E. E. Brooks, 190, 223
Carbons, An improvement in the manufacture of, 174
Carborundum, 613
"Cardiff Electrical Works," 774
Carriages, Self-motive, 283
Cathode rays, 518
„ „ by E. E. Brooks, 648, 706
Cause of the Cannon Street explosions of November 10th, by J. Enright, 760
Caustic soda, Manufacturing by electrolysis, 79
Ceiling roses and wall connections, Hedges's patent spring reel, 567
Central electrical laboratory at Paris, 542

CENTRAL STATIONS—
Berlin, 427
Bolton, 560, 597
Burton, 77
Cardiff, 718
at Cologne and Amsterdam, 326
Derby, 67
Ealing, 404
ELECTRICAL REVIEW list of, December 21st, 1894
Halles, 420
Hampstead, 410
Hanley, 313
Instruments, 325
Manchester, 69
New (a poem), 599
Southport, 557
Transmission machinery, Power losses in the, by Wm. S. Aldrich, 20, 29
Worcester, 441
Working of, 365

Change of address, 326, 353, 414, 506, 534, 567, 596, 597, 691, 777
„ of firm, 744
Charging the public for electricity from a central station, Various methods for, by Alfred H. Gibbings, 96, 125, 157
Charterhouse Science and Art Schools and Literary Institute, 354
Cheap electric light, 426
Chemical action, Electricity as a register of, 187
„ analysis, Application of electrolysis to, 610
„ energy for the production of electricity, Experiments in the utilisation of, 616
„ research, An electrical method for, 394
Chicago Exhibition, British exhibitors and the, 264
Chloride of lead battery, by Emile Andreoli, 117
Chlorine and soda, Electrolytic production of, by Emile Andreoli, 395

Chloride electrical storage battery, 503, 507, 585
Choking coils *v.* resistances, by Rankin Kennedy, 494
Christiansen, C., on Experimental investigations into the origin of frictional electricity, 736
Chronograph, A new, 691
„ A special, by Henry Lea and Robert Bragge, 240
City accident, The Board of Trade inquiry into the, 624, 643, 657
